

Customer Truck Safety at Mines

SAFETY RESOURCES FOR THE MINING COMMUNITY

The California Construction & Industrial Materials Association (CalCIMA) makes available these materials to assist industry with customer truck safety:

- **Postcard**
- **Brochure**
- **Video**
- **5 warning signs**

These signs and training materials are available at www.calcima.org

Industry is encouraged to use these materials to standardize customer truck training and warnings:

- **Place the warning signs in your mines and plants.**
- **Hand out the postcard at your scale houses.**
- **Include the brochures in your invoices.**
- **Invite drivers, brokers, and employees to watch the video.**

These materials have been reviewed by the Mine Safety & Health Administration.

If you would like to make signs for your mines and plants, hi-resolution files are available from CalCIMA. Please contact spridmore@calcima.org

CalCIMA is a trade association for aggregate, industrial mineral, and ready mixed concrete producers in California.
CalCIMA 1029 J Street, #420 Sacramento, CA 95814 (916) 554-1000 www.calcima.org
