

about us

Who is CalcIMA?

“CalcIMA” is an acronym for the California Construction & Industrial Materials Association, the statewide voice for the aggregate, industrial mineral, and ready-mixed concrete industries.

What CalcIMA Does...

In addition to being the major source of information on aggregates, industrial minerals, and ready-mixed concrete, CalcIMA acts on behalf of the industry as a whole:

- Addresses legislative, regulatory, and environmental issues affecting the industry;
- Provides members with safety, technical, environmental compliance, and communications training;
- Educates legislators, regulators, and the public.

The Association also provides expertise on environmental, technical, and infrastructure issues for formulation of public policies. Educational conferences, trade shows, compliance seminars, and publications, keep the membership informed on issues.

Who Is Our Membership?

CalcIMA represents over 100 aggregate, industrial mineral, and ready-mixed concrete companies in California. Over 60 service providers and suppliers are also associated with CalcIMA. CalcIMA has offices in Sacramento and South Pasadena. In addition, there is a network of regional chapters to focus on local issues, and numerous committees focusing on policy issues.
